

THE Smart POS FOR YOUR RESTAURANT

TouchBistro is the iPad point of sale (POS) solution designed specifically for restaurants.

TouchBistro improves staff and operational efficiencies, lowers costs, and provides a customer experience like no other!

As the **#1 grossing food and drink app in 33 countries** in the Apple® App Store*, TouchBistro is a proven POS solution that delivers an easy-to-use product, smart features that matter, and complete front-end and back-end capabilities.

TABLESIDE POS

TouchBistro can be stationary or on-the-go with your staff, ready for any patron request or payment - break free from the clunky counter terminal and serve more customers faster:

- ✓ Leverage the power of suggestion and **upsell by presenting menu item pictures** with detailed descriptions.
- ✓ No more errors and **no more running back and forth** - wirelessly send orders to the kitchen and bar while simultaneously engaging with customers.

Keep your customers comfortable by quickly **processing payments tableside**. Sign on the screen and **email the receipt** to create a **true paperless, hassle-free experience**.

“ I love the fact that the system works fast. Backend reporting is incredibly easy to use and the ability to easily modify the menu is genius. ”

Ciao for Now - NYC

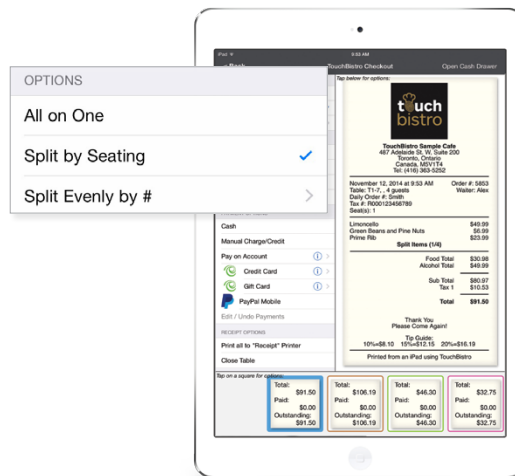

“ I often recommend TouchBistro to other restaurants. The best thing management-wise is the ease of creating and running reports. Not to mention, the service from TouchBistro’s support team has also been very good. ”
