

BREWERY

TouchBistro Brewery iPad POS System:

Brew customer experiences that are as polished as your beers.

BEER, FOOD, MERCHANDISE AND CULTURAL EXPERIENCES: THERE'S NO DOUBT THAT BREWERIES ARE ON-TREND.

But is your POS playing catch-up with your offerings? Modern breweries need a POS system that can handle all of their needs - not just those offered through bar/restaurant POS solutions. Cue: TouchBistro. The TouchBistro Brewery iPad POS System is the only solution that provides breweries with the tools to provide a seamless customer experience, while increasing front and back of house efficiencies.

Get **smart features** that work

Customized Bar Tabs

Categorize and keep bar tabs by customer name or seating time. Merge existing bar tabs with a tap of your finger when a customer wants to buy a round.

Merchandise

Easily sell merchandise, create promotions and process refunds.

Happy Hour Deals

Customize your happy hour deals by item, day, and time. TouchBistro will adjust the prices when the deal's active, and reset back to default amounts once happy hour is over, helping your business drive the most revenue.

Inventory

Better track and manage your stock by warning staff when inventory is low.

Reservations

Instantly book tours, tasting sessions, and parties with TouchBistro's built-in reservation system.

Cloud Reporting

Get real time insight into your business - anywhere, anytime, across any device. With TouchBistro's hybrid solution that leverages the convenience of the cloud, you can remotely access beautiful reporting dashboards that will help you visualize your brewery's performance.
