

COFFEE SHOP

TouchBistro Coffee Shop iPad POS System:

The better way to manage nonfat, no foam, no water, six pump, extra hot, chai tea latte orders.

NO ONE LIKES TO COME BETWEEN A CUSTOMER AND THEIR NEED FOR CAFFEINE!

You want to serve your customers quickly and your POS shouldn't slow you down. From taking orders to processing payments, boost your POS system with a shot of TouchBistro espresso. The TouchBistro Coffee Shop iPad POS System allows your servers and baristas to instantly process even the most complex orders, work down the line and **turnover happy customers faster**. Your customers already crave your coffee, and with TouchBistro, you'll have them addicted to your customer experience as well.

Get **smart features** that work

Easy Modifiers

Extra shot of espresso? No foam? Light milk? No problem! With all beverage and food modifiers readily available through the TouchBistro POS solution, managing special requests has never been so intuitive. Add custom modifiers on the fly or make use of common mods already programmed into TouchBistro to deliver the perfect cup of joe to your customer!

Modern Payment Processing

Debit? Credit? Gift cards, mobile, cash? Yes, yes, and yes! Provide flexible payment options through TouchBistro and allow customers to settle their bill as they wish.

Quick Register

Create efficiency and serve your customers faster with the Quick Register feature. Built for speed, TouchBistro allows you to utilize a variety of quick buttons to eliminate steps and save you time.

Cloud Reporting

Get real time insight into your cafe - anywhere, anytime, across any device. With TouchBistro's hybrid solution that leverages the convenience of the cloud, you can remotely access beautiful reporting dashboards that will help you visualize your coffee shop's performance.
